NEW INITIATIVES MARKETING

Marketing Strategy Goals

Marketing Strategy Goals:

- ✔ **Core Difference & Positioning**
- ✔ **Awareness**
- ✔ **Increased Lead Generation** (more of the right MQLs)
- ✔ **Increased Lead Conversion** (more conversions to SQLs)
- ✔ **Improve Retention**

Goal - Core Difference & Positioning

- ✔ **Challenge:** Lack of differentiation from competitors, especially in messaging, look and feel.
  - All competitors focus on screen shots, feature comparison, and lower level benefits. Lack of differentiation in the marketplace between project management software & software like FP.
  - Too much focus on PM benefits on the FP side.
- ✔ **Goal:** Clearly differentiate Function Point by focusing on the real end pain points for Agency Owners, emotional language and a personal connection.
- ✔ **Action Steps:** New messaging grid, updated messaging on the website and in key online and foundational marketing assets.
  - Add personal elements throughout, including more videos and focus on team members (meet your customer success manager)

NEW INITIATIVES MARKETING

Goal: Awareness

- ✔ **Challenge:** Lack of awareness in the marketplace in general. Competitors are showing up in the ads section for most Google searches, while FP is not. Makes it harder to gain buy-in across all creative agency functions, including users & project managers.
- ✔ **Goals:** Increase awareness in the marketplace through advertising.
- ✔ **Action Steps:** PPC advertising on Google, Podcast Ad Spots, Association Marketing.

Goal: Awareness/Lead Gen SEO & Search

- ✔ **Challenge:** More competitors (or competitor presence) in both the project management and all-in-one agency management software categories threatens FP's ability to generate more leads as the market becomes increasingly saturated.
  - Most Google search begins with Project Management, which FP is not targeting
  - FP is not showing up in enough "Top" lists and lacking recent reviews on key sites
- ✔ **Goals:** Generate more leads coming in both through the current strategy (agency management software) and through the Project Management entry
- ✔ **Action Steps:** New hub pages & SEO strategy for three buyer personas and competitors, Google Search ads for PM & Agency Software. Create a list and review site campaign.

Goal: Lead Generation Part 2: Agency Owner

- ✔ **Challenge:** Agency Owners are the main buyer for Function Point and can be easily identified and found, but are not being actively targeted through outreach campaigns.
  - FP is only reaching Agency Owners when they're at a later buying stage and actively searching for options - a task they often outsource to their PMs
- ✔ **Goals:** Reach Agency Owners and begin educating them earlier in the buying process. Identify and target ideal Agency Owner prospects.
- ✔ **Action Steps:** Facebook/LinkedIn advertising, account marketing campaign, podcast advertising, event & association marketing.

Goal: Lead Conversion

- ✔ **Challenge:** There are no niche funnels to move each specific buyer persona from MQL to SQL status. Each persona has specific needs, but are currently getting the same information, which may or may not work for them. Leads could easily fall off = a lost opportunity.
  - The current “Request a Demo” is a bottom funnel and fairly high risk try, and FP could be missing an opportunity to convert MQLs to SQLs earlier on in the buying process.
- ✔ **Goals:** Create new funnels for each of three personas to increase conversions. Reduce the risk of the “Request a Demo” try, and add a more middle funnel demo try
- ✔ **Action Steps:** Create three new persona funnels, including CTAs, landing/thank you pages, and lead nurturing sequences. Add new middle funnel demo try and make it a personal experience. Add new messaging to make it easier to sign up for “Request a Demo”

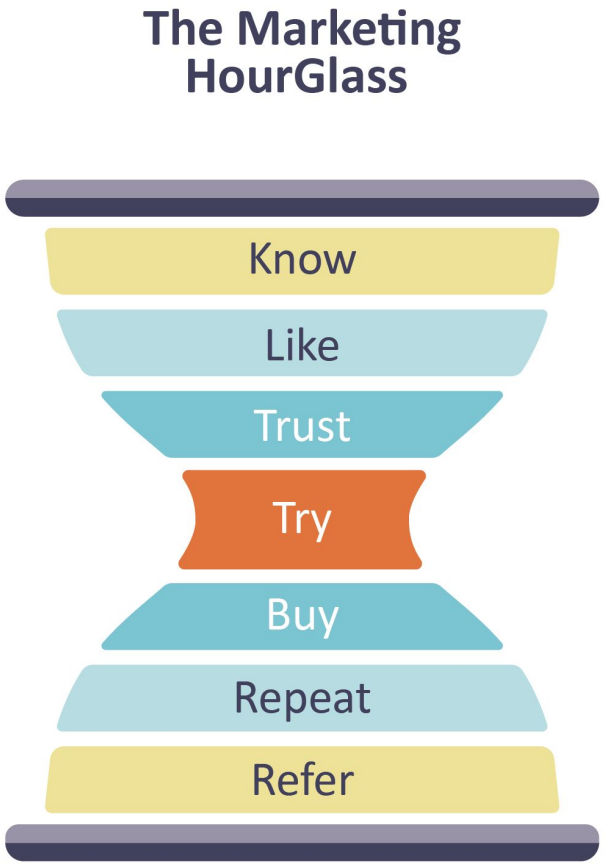

Goal: Client Retention & Referral

- ✔ **Challenge:** Competitors are actively targeting FP customers & there is increasing push from the PM side to change softwares. Client's have bought in to FP's future vision, but won't wait forever. PM part of the software is lacking key functionality (whether perceived or real).
- ✔ **Goals:** Increase awareness of what FP can do with customers and increase client usage of key functionality so they can better see FP benefits over time, show customers that FP listens and cares, become a best practices partner.
- ✔ **Action Steps:**
  - Review sites, customer marketing (newsletter, social media), videos

Marketing Strategy Overview

NEW INITIATIVES MARKETING

Marketing Strategy Overview *Customer Journey*

NEW INITIATIVES
MARKETING

Marketing Strategy Insights

- ✔ Differentiate FP by focusing on real pain points and integrating personal connection throughout the buyer's journey
- ✔ Close the expectation gap on the project management side - but use as a way to get prospects in the door
- ✔ Create separate marketing funnel streams for three personas:
  - Agency Owner (GM/Director/Operations Manager)
  - Finance Manager
  - Project Manager/Traffic Manager/User
- ✔ Update website and online assets to reflect these three personas:
  - Hubpages and updated SEO for each persona
  - Hubpages based on competitors (hub pages workhorse for you into the future)
  - Reorganize & group blog posts and resources for each persona
- ✔ Awareness campaigns for PMs and Users
  - Paid ads, podcast advertising
- ✔ Targeted campaigns for Agency Owners and Finance Managers (account based marketing - Associations, events, podcasts, etc.)
- ✔ More customer focused marketing to improve retention

Insights:

- ✔ Clearly differentiate Function Point & create personal connections
- ✔ Mitigate key software & user marketing challenges
- ✔ Significantly increase awareness
- ✔ Generate more of the right leads, more efficiently

Hub Page Example

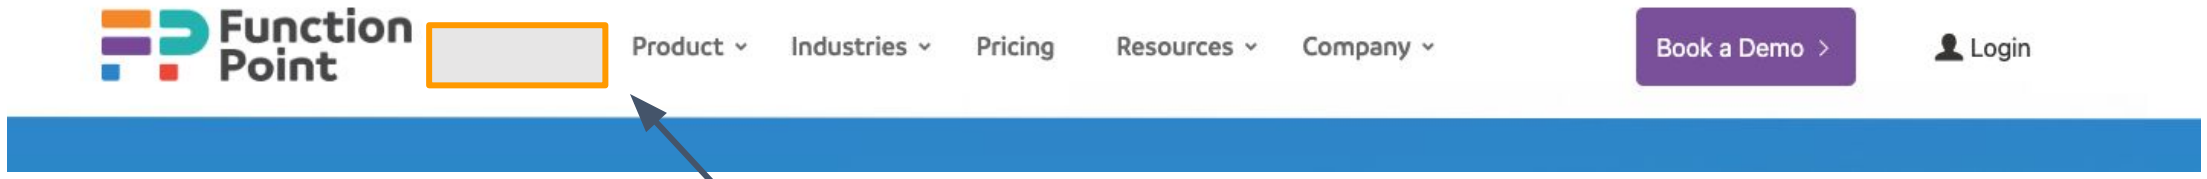

https://polytechtalent.com/guide-to-hiring-executive-talent/

Insights:

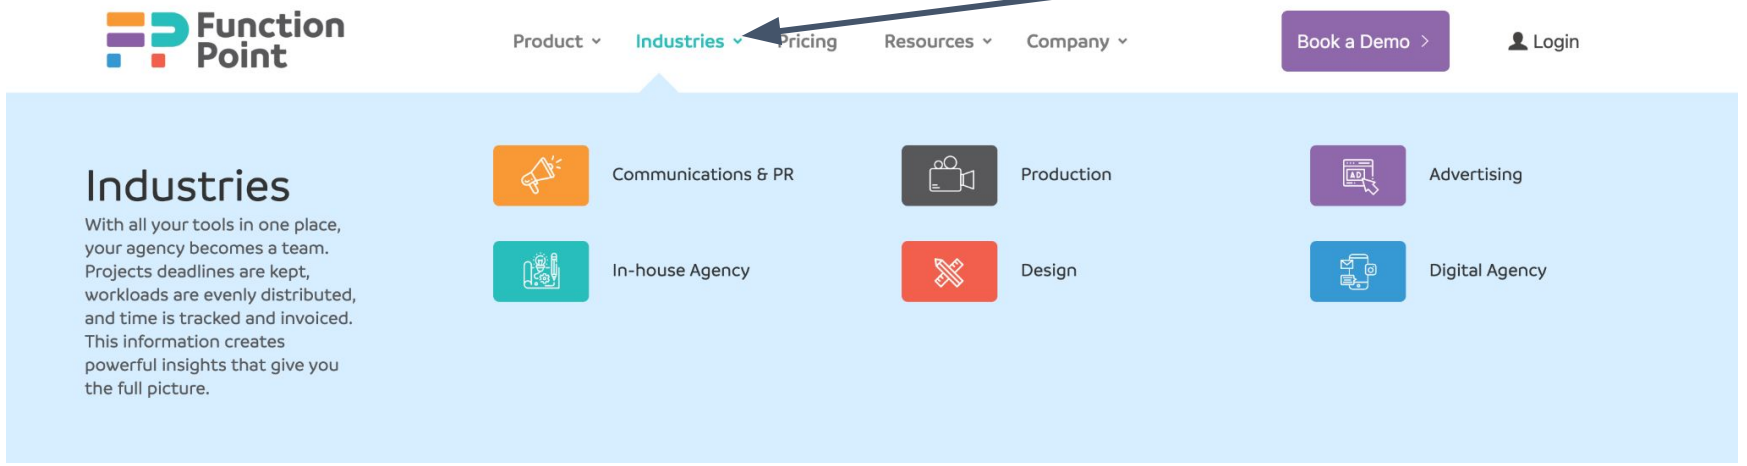

- ✔ Hubpages are a way to organize your content. It makes it easy for your persona to find all the information **applicable to them** in one spot.
- ✔ The alternative is leaving them to search through your site for content applicable to them. Which unfortunately, they will not do.
- ✔ Make it easy for your persona to know Function Point supports them, “gets” them, can help them.

NEW INITIATIVES MARKETING

Hub pages could sit in the menu & drop down for each persona

Or they could be added to Industries as an additional topic “Your Role”

NEW INITIATIVES MARKETING

Social Media - LinkedIn Company Page

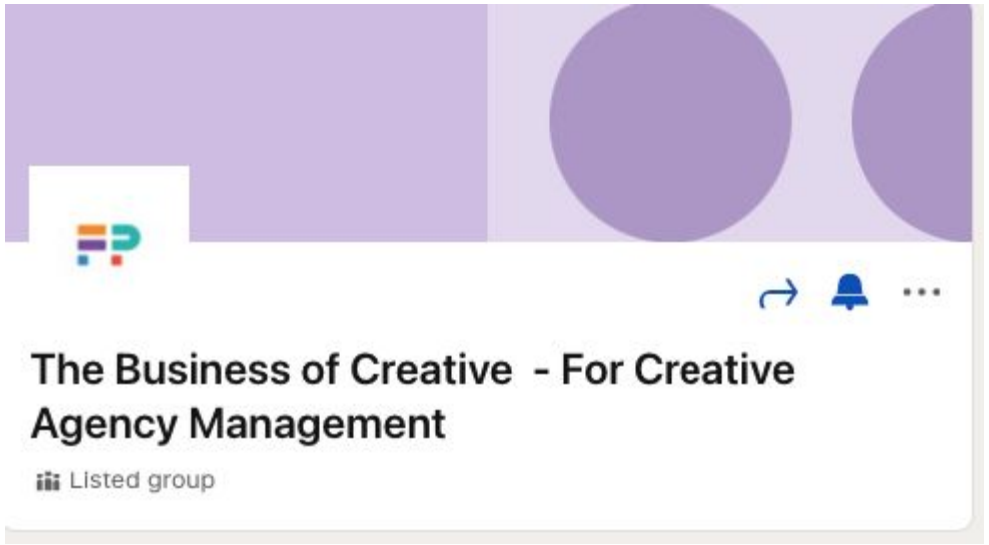

To do:

- ✔ Ensure name of company is the same on all digital channels
- ✔ Post daily based on content plan
- ✔ Encourage employee engagement on social
- ✔ Consider paid ads after 6 weeks of consistent organic increased activity
- ✔ Establish the free lead gen form on the company page

NEW INITIATIVES MARKETING

Social Media - Business of Creative LinkedIn Group

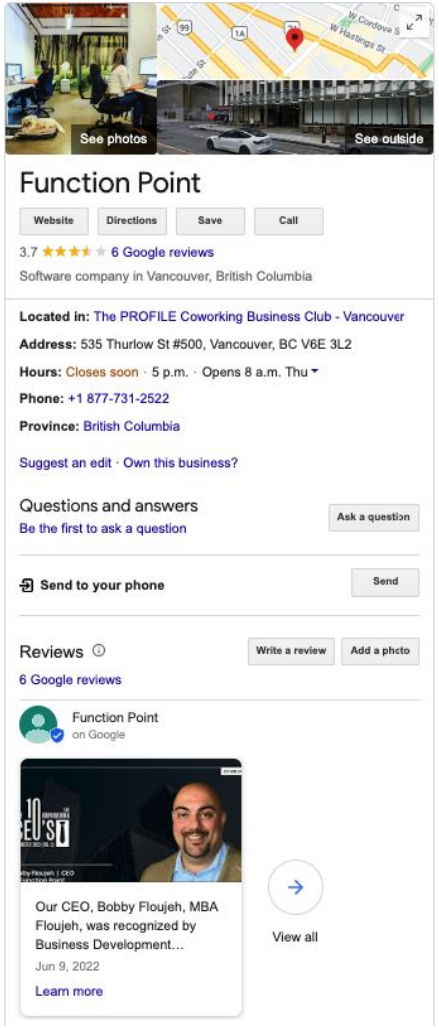

To do:

- ✔ 3,500 members, 600 waiting to be approved
- ✔ Use this community to build the emotional connection between Function Point and your personas - perfect place to “try out” emotional messaging without being salesy
- ✔ Post 2x per week to get started since the group is not used to hearing from you
- ✔ Assign a community manager to approve applications, post content, like and comment on others…build the community
- ✔ What if 1% of the group could become FP customers in 2022?

NEW INITIATIVES MARKETING

Social Media - Google Business Profile

- ✔ To do:
  - Officially claim the listing
  - Post your blogs and other content on a 7 day rotation
  - Use the 1500 character field in every post to include keywords and information about your company
  - Post additional product and company information - there is room for a lot of information to share
  - Fill the listing out fully to take advantage of its ability to promote your company (Google property)

Function Point Productivity Software Inc.
Function Point Productivity Software
Function Point
Function point
Function Point - Creative Project Management Tools
Function Point Productivity Software Ltd

✔ To do:

- Decide what you'll be called online, then update all digital properties to that name: Google Business Profile, Social Media, Business Directory Listings…
- Using the same naming format will help put all your online efforts behind one push of content, otherwise Google doesn't recognize that all of these differently named companies are the same company. As a result your efforts online are getting splintered unless you choose one name and use it across all digital properties
  - Function point
