# STRATEGY FIRST

***A proven B2B marketing strategy process for difference-making insights and practical application***

## The actionable strategy you need for short term wins & long term results

Have you grown your B2B firm to a certain level on primarily sales-led initiatives? Is hiring more salespeople or making more calls no longer working to move the revenue needle? Then it might be time to make a more serious investment in marketing. But where do you start? ***With Strategy First.***

**Strategy First is a 60-day proven B2B marketing strategy process. At the end of 60 days, you will have an actionable 12-month marketing strategy that is ready to implement – either by you or our Fractional CMO & Expert B2B Marketing Team.**

### *Say goodbye to guesswork & random acts of marketing with a strategy first approach:*

- **Move past random acts of marketing.** Does your current marketing look like a patchwork quilt of ad-hoc marketing efforts and one-off campaigns by various marketing agencies? Over time, these random acts of marketing become hard to manage, produce conflicting & confusing messaging, and work at cross-purposes, which wastes valuable time and money. Our Strategy First approach streamlines all of your marketing efforts.

- **No more marketing guesswork.** When it comes to recommending the right positioning to set you apart from the competition, or the marketing tactics to increase leads and conversions, we don't make our best guess. We base our recommendations on research, data and a thorough review of your business & marketplace.

- **Stop making assumptions & take a client-centric approach.** One of the biggest & most common mistakes is building a marketing strategy around interviews with the CEO & internal leaders alone. We base our marketing strategies not around your internal assumptions, *but what your clients tell us works for them.* We interview your clients to better understand their customer journey, why they chose you over competitors, and what they think sets you apart. This is the key to a difference-making marketing strategy that drives real results.

Ten out of 10 times the results of our client interviews have a dramatic impact for our B2B CEOs - **not only in terms of marketing & positioning** - but across their business.

## Strategy First Seven Step Process

### 1. DISCOVERY MEETING & CLIENT INTERVIEWS

Following a detailed intake meeting with your internal teams where we'll learn about your business goals and objectives, we'll begin our interviews with your ideal customers, partners and internal team members.

### 2. COMPETITIVE & MARKET LANDSCAPE REVIEW:

We'll do a deep dive review of your marketplace, including a detailed study of your biggest competitors, which will include high-level summaries of their positioning and marketing strengths and weaknesses (and what this means for you).

### 3. CORE MESSAGE & IDEAL CLIENT PERSONAS:

Based on our interviews with your clients, partners and internal teams, we'll uncover your most effective core difference & competitive advantage. You'll receive ideal client profiles, and our recommendation for a core marketing message that will allow you to stand out from the competition.

*At this point we'll also meet to share the results of our client & team interviews. You'll get key insights into what your clients really want and value about your business, and we'll share our recommended direction for your marketing strategy and get initial buy-in.*

### 4. MARKETING HOURGLASS & CUSTOMER JOURNEY MAP:

Using our Marketing Hourglass methodology we'll create your marketing strategy, including a customer journey map outlining each step your clients need to take to become paying customers, and suggested marketing tactics, content, and sales-enablement materials for each step.

### 5. EDITORIAL CONTENT PLAN:

Based on our marketplace review, client interviews and other keyword research, we'll build a content strategy using our unique Signature Thought Leadership and "hub pages" approach. We'll map out 12 months of content that will form the foundation for your marketing efforts, and help to position your subject matter experts as thought leaders.

### 6. PRIORITY GROWTH RECOMMENDATIONS:

From our research, client interviews, and an audit of your current marketing and online presence, we'll recommend the highest-impact marketing activities you need to consider fixing or implementing over the next 12 months, in addition to your ongoing content plan.

### 7. FINAL STRATEGY PRESENTATION:

Once we complete our work we'll deliver your final strategy and map out what we believe is the best strategic approach for you to take with your marketing.

This includes a detailed 12 month action plan outlining exactly how to execute on each area. From this point, you'll have several options for how you put our recommendations into action. We can execute the plan for you, or guide you and your team.

# STRATEGY FIRST DELIVERABLES

## Customer Interviews + Deep Dive Review:

We don't make any assumptions when it comes to your marketing strategy. We get up to speed quickly on your products, clients, marketing and marketplace with a deep review process, including:

- Interviews with your ideal customers partners, and internal teams.
- Competitive review and market research.
- Product and services review.
- Marketing and Total Online Presence audit (including your entire customer journey from lead generation through to sales, customer success and referrals).

## Quick Wins Recommendations:

Early in the strategy process (following the client interviews & marketing system audit) we'll recommend some quick fixes and changes to your marketing we can implement right away (while we continue working on your larger strategy): This often includes:

- Quick messaging & positioning changes that are more aligned with what your ideal clients are telling us is important to them.
- Quick website and content changes to improve lead acquisition or conversion.
- Quick fixes to your marketing and sales system to increase conversions.

## Customer Insights Presentation:

Following our interviews with your customers and deep review process, we'll meet and present our findings, insights and recommended direction for your marketing strategy. Our recommendations will include:

- Your core difference and positioning based on what your clients told us.
- Any messaging, copy and branding changes to bring your new positioning to life.
- Buyer personas and an outline of your step-by-step customer journey, including all the educational, marketing, and sales enablement materials needed at each step.
- The best outbound and inbound marketing tactics and campaigns to increase awareness and bring in more qualified leads.

## Final Strategy Presenation:

Following our initial presentation meeting, we'll begin creating a detailed action plan around how to implement and execute on your strategy. This will include:

- Detail on how to bring your customer journey to life in the real world as a powerful marketing conversion system and any changes to your current website, materials, and technology needed to make this happen.
- An outline of your 12 month Thought Leadership content marketing plan to position your company and teams as experts, and set the stage for a consistent stream of inbound leads.
- A detailed action plan for all of our recommended lead generation and conversion activities.

# Strategy First Results

## By the end of our B2B Marketing Strategy Process, you will know:

- *Exactly why your customers buy from you and stay with you.*
- *What your clients see as your true core difference and how to leverage this to set you apart from the competition.*
- *What's working and not working in your current marketing and sales process and where there are any gaps.*
- *Some quick win immediate steps you can take right now to improve client acquisition and conversion.*
- *Your ideal customer journey and how to turn this into a marketing conversion system and powerful sales-enablement tools.*
- *The way your clients and prospects really search for and find products and services like yours, and how you can leverage this information through your marketing & sales activities.*
- *The best marketing system for your business and how it will help to future proof your company by working tirelessly in the background to convert leads and prepare them for sales conversations.*
- *Who your internal subject matter experts are, and how you leveraging them as thought leaders can be a game changer for your firm.*
- *Your right marketing channels and activities, and the ones you should take action on now.*

**Most importantly, you'll know exactly what to do and not to do when it comes to marketing and have everything you need to implement and execute on your marketing strategy in the real world.**
